

## Researching a College

Name of College:

Please answer the following questions.

1. When you look at the location of this school on a map, what do you find around it that interests you? Is it too close, too far, or just right from home, a town, or a city?
2. When you look at the academics and majors the school offers, is there one, two, or none that interest you? If there are some that do interest you, write the major down and look to see if you have the high school coursework to be ready. If you are undecided, does the school offer ways to help you decide?
3. Identify activities that the school offers that you would get involved in?
4. When looking at Unigo and College Niche websites, what are the best things about the school, and the worst things about the school.
5. When you watch video about the school, how would you describe the campus?
6. What happens at this school that drives school spirit?
7. Name two unique things about this school that you found out.
